01 Profile

Full-stack developer and data scientist with a **dual Master's in Data Science/AI & Digital and Data Project Management** (graduated with **highest honours**, April 2026). **4 years of experience** designing and deploying web/mobile platforms and AI solutions in production, with a rare specialisation in natural language processing for African languages (Wolof, Pulaar) and conversational chatbots. Equally comfortable with hands-on development, project management and client relations.

02 Professional *experience*

Jul 2026 – Present

Digital & Data Project Management Consultant — Jokalante SAS

Dakar, Senegal · Part-time engagement (2 days/week)

- Continued leadership of strategic projects (FlowAgri, Saaytu Mbay, P3AFR) as a consultant.

Dec 2024 – Jul 2026

Full-Stack Developer & Digital / Data Project Manager — Jokalante SAS

Dakar, Senegal

Full-stack developer, digital project manager and client focal point on several AI and data platforms, from scoping to production deployment.

Saaytu Mbay — conversational farming chatbot in Wolof `WhatsApp : +221 77 734 40 30`

- Full-stack developer, digital project manager and client focal point: scoping, technical team coordination, roadmap tracking.
- Integrated the NLP models and LLM that generate answers to users' farming questions.

Wolof AI API — speech recognition (ASR), translation and speech synthesis (TTS)

- Full-stack developer, tech lead, digital project manager and client focal point (MyAgro).
- Designed and deployed a FastAPI service exposing ASR (MMS, Whisper), Wolof ↔ French translation and TTS on GPU infrastructure (RunPod, A40).

FlowAgri — digitising the agricultural value chain `flowagri.cloud`

- Full-stack developer, digital project manager and client focal point (commercial distribution partnership with Solsen) on the end-to-end agricultural digitisation platform.
- Trained end users (agricultural value-chain actors with little experience of digital tools) on the platform.

P3AFR — platform for CNCR/ASPRODEB `cncr-teranga.com`

- Full-stack developer, digital project manager and client focal point (CNCR/ASPRODEB).
- Trained end users (farming stakeholders with little experience of digital tools) on the platform.

Echo `echo.jokalante.com`

- Information broadcasting platform using phone calls and SMS. Full-stack developer, digital project manager and client focal point.

CRM Fidelia `fideliacrm.org`

- Full-stack developer, digital project manager and client focal point: 26 modules shipped (~464 hours), integration testing coordination.

Dec 2024 – Dec 2025

Full-Stack R&D Engineer — SunuChat project, Thiès Polytechnic School

Thiès / Dakar, Senegal · Jokalante partner · Funded by Grand Challenges Canada · sunuchat.com

- Full-stack tech lead of a conversational chatbot in Wolof answering public health questions on malaria and dengue.
- Designed the application architecture and integrated the language processing models.

May 2024 – Nov 2024

Freelance Front-End Developer — Self-employed

Dakar, Senegal

- Built modern, responsive interfaces (React.js) for a clinic management platform.
- Implemented UI/UX mock-ups in close collaboration with designers, using agile methods.

Feb 2022 – Mar 2024

Full-Stack Developer — Pulse Digital Senegal

Dakar, Senegal · Intern → fixed-term → permanent · Senegalese subsidiary of a Swiss group

- Developed and maintained web and mobile applications (React, Flutter, Laravel) for international clients including Linepharma and Migros (Switzerland).
- Worked with product teams to define requirements and improve user experience.
- Optimised application performance (responsiveness, load times).

03 Personal & freelance projects

Leeral — my product `leeral.expo.app`

- Explains French documents (prescriptions, bills, letters) out loud in Wolof and Pulaar, on WhatsApp (+221 76 611 10 21), Android and the web.
- Founder, project lead, lead developer and WhatsApp integrator: FastAPI, PostgreSQL, Redis, Expo.

Waluma — health `waluma-api-d3hq.vercel.app`

- Home healthcare platform in Dakar connecting patients and practitioners: patient app, practitioner app, back office and website.
- Designed and built solo: Expo, Next.js, Express, Prisma, PostgreSQL.

Meli Micro — editorial website `melimicro.com`

- Website for a podcast and writing: episodes, reviews, a literary corner and quick search.
- Designed and built solo: Next.js, Vercel.

SPOT Énergie — website `spot-sc46.vercel.app`

- Website for a solar and electrical installation company in Dakar, built to generate quote requests.
- Designed and built solo.

04 Education
